

HERE'S WHAT YOU'LL BRAG ABOUT:

OPEN-FEEL FLOORPLANS FEATURE A GLORIOUS ENTERTAINING KITCHEN AND A SMART USE OF SPACE. THESE ARE AMAZINGLY EFFICIENT HOUSES.

- Charming exteriors with warm wooden siding and shingles; and interiors with extra windows and 9-foot ceilings on the main floor so rooms feel bigger and get bathed in natural light
- Kitchens have sweet details like a stainless steel gas cooktop, counter-depth refrigerator & easy-to-care-for quartz countertops complemented by porcelain mosaic tiled backsplashes
- Super big walk-in closets in the main bedroom mean there's a whole side for him, a whole side for her and space for a dresser for both to share
- Get the ideal flooring choice for each room: beautiful, durable wood laminate in living areas and toasty warm, cut-loop carpeting on the stairways, bedrooms and top floor
- Unbelievably special outdoor living rooms. Seriously. They've got a double-sided fireplace and west-facing mountain views that will make you never want to leave
- Two-car garages give you room to park and store all your gear (yes, all of it). Plus, there's dedicated parking for visitors on your driveway and on the street
