Basalt makes a strong visual impact with its refined modernist design and admired location beside Queen Elizabeth Park. Designed by Shift Architecture, and framed by ancient basalt rock and an ornamental entry water feature, the LEED Gold building expresses a confident statement of modern living with a strong silhouette and precise attention to detail.

Following in Pennyfarthing's success of Bennington House, The Grayson, and Hawthorne, Basalt embodies the same philosophy of quality craftsmanship and design excellence, while offering a truly unique West Coast experience.
